

# ADVANCING ADVANCED LEARNERS

with Cindy Kruse

There are advanced learners in every classroom... at every grade level... in every school. It can be difficult to adequately meet the needs of these learners. In this interactive workshop you will learn specific strategies for creative and meaningful ways to challenge advanced learners across the curriculum so that they can reach their potential.

Cindy Kruse brings over 20 years of experience in education and a passion for creating optimal learning experiences for all students. Her broad classroom teaching experiences include early childhood, elementary, and middle school classrooms. In addition to teaching in the classroom, she has held the positions of gifted support teacher for grades K-5 and liaison for gifted education in the state of Pennsylvania. Cindy has served as an educational consultant and professional development specialist for the Delaware County Intermediate Unit, providing support to 15 school districts, 3 charter schools, and over 30 private schools. Her areas of expertise include literacy, social and emotional learning, gifted education, inclusive practices, effective instruction, as well as designing and implementing multiple-tiered systems of support (MTSS).
