

POWER AAC: Supporting Your Students with Core Vocabulary Modules 7 - 12

Participants will learn to support students with whom they work in their classrooms or caseloads with complex support needs and who would benefit from augmentative alternative communication (AAC) through the use of core vocabulary. Participants will use a blended learning model, videos and online teaching, to explore and expand their understanding of the Power ACC modules and support their students.

REGISTER: WWW.MCIU.ORG/REGISTER

Power AAC focuses on five key areas to increase the skills of educators as they learn about communication to support their students. It focuses on Powerful skills in:

1. Partner Skills
2. Opportunities
3. Words in social and instructional environments
4. Evidence for decision-making
5. Resources for creating, sharing, and implementing for guiding your students

Session Expectations:

1. Participants will view six (6) Modules in a flipped classroom course through viewing webinars outside of the online activities prior to attendance.
2. Handouts will be available for participants to download and view during this viewing process.
3. Participants will complete a survey after viewing each module to help guide our online sessions
4. Participants will attend online sessions with all participants in attendance.
5. A monthly activity will be assigned based on each module.

At the end of the session, a survey will be completed by each participant. Act 48 hours will be for 12 hours. Attendee must attend all sessions, and complete all required activities to receive credit and act 48 hours. Completion of Modules 1-6 is a prerequisite.
