Drive Through COVID-19 Rapid Antigen Testing

The Montgomery County Intermediate Unit
2 W. Lafayette St., Norristown, PA 19401

What is a Rapid Antigen Test?

Rapid antigen tests are commonly used to test for respiratory viruses, such as RSV in children and influenza.

Antigen tests look for proteins found on or within the virus that causes COVID-19. They tell you if you have COVID-19 right now and could spread it to other people. An antigen test is like a PCR test, where a sample is collected with a nasal or nasopharyngeal swab, but you are able to get the results much quicker. Results take about 15 minutes.

Who Can Be Tested?

The Rapid Antigen COVID-19 Testing is only for Montgomery County School District staff & contractors who are working in person and asymptomatic. If you are experiencing any COVID-19 symptoms, you will not be permitted to attend, and you instead must proceed to a County Testing Site.

To register for the Rapid Antigen Test at MCIU (asymptomatic): www.calendly.com/mciu/rapidtest

For information on County Testing Sites (symptomatic): www.montcopa.org/3493/testing

For questions, please contact: rapidtest@mciu.org

TIME & DATES:

3:00 PM - 6:00 PM

Mondays

IMPORTANT - PRIOR TO YOUR APPOINTMENT:

Prior to your appointment, you **MUST** register and create a QR code and bring it with you to your appointment.

1. Go to register.pennrapidtest.org and enter your information.
2. You will see a QR code. Either screenshot the QR code on your phone or print it out. Bring your QR code with you to your appointment.

DIRECTIONS & INSTRUCTIONS FOR DRIVE THROUGH TESTING:

Testing will be administered at the MCIU building at **2 West Lafayette Street, Norristown, PA 19401**. To access the MCIU parking lot, please enter the lot at the intersection of Lafayette Street and Barbadoes Street. You will see a white security booth with two lanes.
