

# ACT 45: ENGINEERING EFFECTIVE STEAM LEADERSHIP

## ATTENTION: Instructional Leaders

School leaders face a unique challenge in their schools as they strive to build a culture for STEAM education, build equitable access to STEAM opportunities for their students, and connect STEAM stakeholders in their communities. This course is designed to help school leaders meet these challenges.

The following key topics will be addressed:

- STEAM as an essential literacy for all students
- Best practices in STEAM education
- The Engineering Design Process
- The Design Thinking Process

## DATE:

MAY 16 AND JUNE 20, 2019

9:00 AM - 3:30 PM

## COST:

Subscribers: \$340

Non-Subscribers: \$440

Lunch will be provided
